

CROSSING OF LLEVANT

3 days 4 nights

Technical difficulty: Easy
Physical difficulty:

What the price includes:

Authorised mountains guides, insurance, back-up logistics and support vehicle for luggage and transfers, accommodation in hotels (double rooms) or hostels with half board.

Description of the programme:

The rugged eastern part of Majorca is less well-known but is an ideal location for this three-day trip through the natural reserve of Llevant, with different overnight stops on the way. It offers a magnificent combination of unspoilt white sandy beaches and the medium height mountains of the eastern Majorcan coastal area. This is an ideal excursion for a first taste of long hikes and for all walking enthusiasts.

Minimum equipment requirements the client must provide:

- Good sturdy shoes for the activity (climbing or hiking boots)
- Water for each day, at least 1½ litres - Lunch during the daily trip
- Suitable clothing for the season
- Lightweight summer sleeping bag for sleeping in the hostel
- Documentación.
- Personal documentation

Location for this activity:

Nature Park of the Eastern Peninsula.
The trip starts in Cala Ratjada and ends in Artà.

Total height climbed	250 m	746 m	606 m
Total descent	249 m	478 m	748 m
Accumulated distance	12,8 Km	23,6 Km	37,27 Km

C / Neptú nº 40 07590 Cala Ratjada. tel. +34 610 344 702

Detailed information on each day or excursion

1 Arrival at the hotel:

Day Arrival by plane, accommodation in a hotel in Cala Ratjada, group meeting and initial briefing to explain the programme and each day's trips.

2 1st stage, Cala Ratjada - S'Arenalet d'Aubarca:

Day This is the first stage of the programme with a gentle beginning and not much height to climb. The whole day is spent close to the coast, heading in a north-easterly direction through the natural park area. It is a very beautiful trip with a changing landscape of beaches, sand dunes and tracks.

3 2nd stage, S'Arenalet d'Aubarca - Ermita (hermitage) de Artà:

Day This is the shortest distance but covers the greatest total difference in height. We leave the NE coast, heading towards the Bay of Alcudia. We will climb the highest hill in the Parque Natural de Llevant, called Sa Talaia Freda, with a total height of 564 m. During the hike we will see a wonderful panorama of views over the Bay of Alcudia, central plain of Majorca and the northern mountains of the Tramuntana.

4 3rd stage, Ermita de Artà-Artà:

Day The longest distance on this trip, today we will cover almost 14 km. We will climb one of the most attractive and typical mountains in the eastern hills, called Farrutx, a landmark with spectacular views over most of the island. From there we will then descend to the town of Artà where this trip ends.

5 Return home:

Day Group departure from the hotel for the flight home.

Price

from: 450,00 € Per person
(min. 4 participants for the activity to take place)
